Who We Are

Shish Infotech Pvt. Ltd. (Shish Technology)

is Patna's leading IT company, trusted by businesses across Bihar, Pan-India, and beyond since 2012. From a lean startup needing its first website to a large corporation seeking enterprise software, our team of 60+ digital experts, developers, designers, marketers, and strategists brings the same commitment to every project: results that matter.

Headquartered in Patna, with the team spread across Pan-India, we are proud to be Bihar's most awarded and reviewed digital partner.

Our Process

How we work

A proven, collaborative process that keeps you informed, in control, and confident at every step.

STEP 01 Consult & discover

We begin with a detailed discovery call to understand your business, audiences, goals, and budget. Every project starts with listening, not cookie-cutter solutions.

Free consultation Requirement gathering Scope definition

STEP 02 Plan & propose

Our team crafts a tailored project roadmap, timelines, milestones, team allocation, and a fully transparent cost proposal. You see exactly what you are getting before anything begins.

Project roadmap Milestone plan Cost proposal

STEP 03 Design & build

Dedicated experts create wireframes and visual prototypes for your approval first. Once signed off, we start with your project, with progress check-ins along the way.

UI/UX design Dev sprints Client check-ins

STEP 04 Test & Launch

Rigorous testing and approval with you before anything goes live. We handle deployment, setup, and performance checks, so your launch with us is smooth and stress-free.

QA testing Cross-functional check Deployment

STEP 05 Support & Grow

Post-launch, our team provides ongoing maintenance, performance monitoring, and integrated support and plans to keep your business growing month over month. We are not just your vendor; we are your long-term digital partner.

Maintenance Performance monitoring
SEO & digital marketing Long-term partnership
